RE: Letter of Reference for Yeongtaek Lee

To Whom It May Concern,

It is with great pleasure that I recommend Yeongtaek Lee, a highly talented and dedicated student from BCIT's Digital Design and Development program. Yeongtaek worked with me on the "A Visual Library of the Ecosystems of BC" project, which culminated in the creation of the website <https://bcecosystems.ca/>

Yeongtaek was an integral part of a two-person team responsible for designing and developing bcecosystems.ca from scratch. His application to work on this project immediately impressed me with his clear passion for user-centered design and front-end development, as well as his eagerness to apply his skills in UX/UI design, web design, and interactive media.

During his 240-hour internship over an eight-week period, Yeongtaek consistently demonstrated exceptional proficiency in translating complex ecological information into engaging, visually-rich web content. He was instrumental in building new pages and enhancing interactive elements for specific ecosystems, such as the Mountain Hemlock, Engelmann Spruce Subalpine Fir, and Alpine Tundra. His contributions were crucial in bringing the project's vision to life and ensuring a compelling user experience.

I am confident that Yeongtaek Lee would be a valuable asset to any organization. He is a diligent worker, a quick learner, and possesses the technical skills and creative vision to excel in the digital design and development field.

Sincerely,

A handwritten signature in black ink that reads "Julia Alards-Tomalin". The signature is written in a cursive, flowing style.

Julia Alards-Tomalin
